- Students **not** following this rule **will get their marks deducted**

8. Lab 7: Hash Tables

8.1. Objectives

- Understand and implement Hash table

8.2. Problem

HashTableApp.java

- Display the key sequence for the initial filling of the table
- Display the hash value and the probe sequence for insert and find.
- Display the probe length for each find and insert
- Display the average probe length for the initial filling of the table
- Investigate how the load factor affects the average probe length
- Implement quadratic probing and compare the average proble length

HashChainApp

- Display the key sequence for the initial filling of the table
- Display the probe length for each find and insert
- Display the average probe length for the initial filling of the table
- Investigate how the load factor affects the average probe length
